

Others Vs. Daughters St. Joseph's Mar. 13

As the classic of all basketball games is the annual contest between the Mothers and Daughters of St. Joseph's Academy, St. Louis, Mo., the date for the event this year will be staged in the gym at 8 p. m. on March 13.

Phyllis Semenzel has been named as general chairman and coach of the Mothers' team. Working with her is a committee of mothers from the Parish, who will promote and lead the game.

The cheering section for the Mothers, under the leadership of Mrs. Jacob, will add hilarity to the evening of entertainment.

to be outdone by their daughters; fathers contribute their efforts, by providing and antics during the half game. Robert Camors, leader of the group of papers presents a deal of fun again this year, as is always at fever pitch the game, with each team

Polio Vaccine Is Delayed

Dr. A. L. Gray, Jackson, released information from the State Health Dept. to Dr. C. M. Shipp, Hancock County Health Officer, that polio vaccine is not being released as rapidly as the Health Department had been assured it would be done.

"Due to this fact it will probably be the middle or latter part of March before another supply of vaccine will be sent to this county," advised Dr. Shipp.

Due notice of receipt of another shipment of vaccine will be given the public via the Hancock County Eagle.

YOUTH CENTER BOARD TO MEET MARCH 5

All officers and members of the Board are requested to be present.

STANISLAUS MUSICIANS AWARDED FIRST PLACE

Six Stanislaus Band Members who participated in the Pearl River Junior College band clinic last week end were assigned first chair solo positions, each in his respective section. The first chair solo position is assigned to the student who obtains the highest grade in the tryouts conducted by the visiting band directors. There were ninety-five students who took the tryouts. The Stanislaus students who received first chair solo positions are, Edward Dufresne, cornet; Jack Crais, Trumpet; Edsel Aucein, Alto Sax; James Raymond, Bb Clarinet; Thomas Crooks, Euphonium; John Joyce, snare drum; Hector Bourg and Charles Bishop both were assigned first chair second trombone.

The clinic band staged a parade through the business district of Poplarville. Every student was dressed in the uniform of his school band and this presented a very colorful spectacle. Saturday night, the clinic band presented a concert for the general public. This clinic is an annual event sponsored by the Pearl River Junior College Music Department under the direction of Mr. Joseph G. Elio.

Absentees Out In Saturday's Election

Absentee voting will not be allowed in Saturday's election, except by Service men and their wives who are with them on Post, either in this country or abroad.

A ruling from the State Attorney General, J. T. Patterson, received Feb. 27, by Commissioner J. Cyril Glover, following a telephone request by him, for such an opinion from the Attorney General, on the recent Senate Bill, which was signed Feb. 24, by Governor Coleman.

The answer from the Attorney General to Glover read in part, "It is the opinion of this office that in an election held after Feb. 24, 1956, absentee ballots cannot be permitted under provision of State Senate Bill No. 1503."

Commissioner Glover said photostatic copies of the opinion would be placed at both the North and the South boxes on Saturday, in order to avoid any disagreements which may possibly occur, since the bill was such a recent one. The election Saturday is the first in the state to be held since the bill was passed by the Senate and signed by the Governor.

Warren E. Traub and George E. Heitzmann

Heitzmann will be the two candidates vying for the office of City Commissioner.

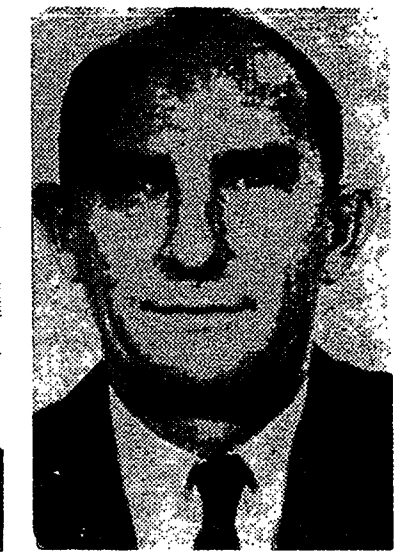

The Election is a special one, called by the City Council to fill the vacancy left by Sylvan J. Ladner when he assumed his duties as Hancock County Sheriff on Jan. 1.

Voting was relatively heavy in the first primary held Feb. 18 with 1213 votes cast out of approximately 1500 qualified voters in the city. It is expected to be even heavier this Saturday.

Polls will open at seven a. m. and will remain open until 6 p. m.

GEORGE E. HEITZMANN

WARREN E. TRAUB

Eight fires in the county during the past week led Area Forester Marion Parker to express the belief that arsonists are still at work in Hancock County.

Parker told the Hancock County Eagle the fires bore all indications of having been maliciously set, but so far no success has been achieved in apprehending the culprits responsible for the holocaust.

234 acres of timber land were burned during the week through Monday. On Tuesday new fires broke out in the Logtown, Ne caise Crossing areas, with one large one on the Kiln Road, near the town of Kila. 239 additional acres were burned on Tuesday.

State and District Forester Commission men are working day and night to apprehend the person or persons responsible for the burning of the most valuable resource of the county.

In the past few years, Timber Farming has become the most important development of the county, and return to prosperity of former days for this community, could be foreseen from logging and pulpwood industry. However, with the vast amount of acreage burned in the last several months the industry has been retarded drastically and growth thrown back ten years or more, with hundreds of thousands of slash pine destroyed.

VFW Holds District Meeting Here On Sunday

Members of the 1st District of the Veterans of Foreign Wars and members of the Women's Auxiliary, met Sunday in Bay St. Louis.

There were about 97 members of the VFW present and about 33 women representing the auxiliary. The meeting was held in the K. of C. Hall on Main Street.

Guest speaker was State Quartermaster and Adjutant Delos Burris, who advised the gathering that he and Walter James Phillips, both members of the VFW and both members of the State Legislature, have introduced a bill before the Legislature to give free tuition to children of deceased veterans of the Korean Conflict.

Among the attendance were representation from Biloxi, Gulfport, Piquette, Moss Point, Pascagoula, Lucedale and Poplarville.

The Bay St. Louis Post was highly commended by the District Commander Morris Harris of Biloxi, and by Adjutant Burns on the progress of the Post and the membership increase since last fall when the post was reactivated.

The next District meeting will be held in Pascagoula at the new Post home, on March 20. An election for the 1st District will be held at this meeting.

Following the business meeting,

an Italian dinner, prepared and served by Jake and Bill Morreale was served.

A meeting will be held tonight for members of the Hancock Post, at the Agriculture Bldg. Nomination of officers for the coming year will be made at this meeting.

LAKESHORE - CLERMONT HARBOR NEWS

The Lakeshore-Clermont Harbor Heart Fund Drive went over the top 500% announced Mrs. C. E. Becker, chairman.

Mrs. Becker expresses thanks to Lillian and Harold Garcia for donating the use of their lounge for the occasion. They prepared a dainty lunch for the convenience of the participants.

For the generous donations of groceries, many beautiful cakes, pies, cookies, wines, liquors, soft drinks, Mrs. Becker voices appreciation.

Many of the above donations were used as prizes, the balance sold or auctioned for cash to add to other cash contributions, which together with proceeds from the games, put the drive over BIG!

For their efforts in helping with the Heart Fund Drive Mrs. Becker wishes to give credit and her heart felt thanks to her co-workers and committee members Mesdames Orr. L. Bordages, Bing, Finn, W. Bordages, Rousseau, Landry, Dantagnan, Brink, Demiss, Foegele, Burleigh, Peterson and Cope.

We Salute Today's 4-H Club Members

We of United Gas welcome the opportunity during National 4-H Club Week, March 3-11, to give full recognition to the fine accomplishments of thousands of 4-H Club Members throughout the Gulf South.

The management of United Gas firmly believes that every citizen and every business organization has the responsibility of trying to make the community where he lives, or does business, a better place. That is why our company considers it a real privilege to sponsor the 4-H Club Junior Leadership program in cooperation with the Agricultural Extension Service of this state.

The qualities that make an outstanding Junior Leader are exactly the same as those required to help build the leaders of tomorrow for our towns, cities, states and nation.

Wavy brown hair, beautiful blue eyes, 5 feet 4 inches tall, fifteen years old, and a wonderful personality describes the outstanding junior girl to a "T".

Sylvia was born in Bay St. Louis, Miss., on June 28, 1940. She moved to Georgia where she lived for two years, then moved to Lakeshore where she still resides.

"I like chorus and piano because I love music," says Sylvia of her activities at Bay High. Sylvia's other activities are major: vice-president of the 4-H Club and song leader of the F.H.A. Her preferred subject is journalism and her favorite teacher is Mrs. Hall. Sylvia has attended Bay High for eight years. Before this she went to Lakeshore School. Rhythm and bowling are her choice sports. Her favorite song is "The Great Pretender", playing the piano is her hobby; her favorite color is blue; and her pet peeve is ill-mannered boys.

"The ideal junior boy should have personality above all," says Sylvia. "He should be nice and considerate of others. Good looks help, too. By the way, I like black wavy hair."

Sylvia's ambition is to be in the entertainment world, or attend college, then get married. Her choice of colleges is Southern and she plans to major in Elementary Education.

Wayne Sutton Alliston, alias "Sut", was elected by the faculty the most outstanding junior boy.

Wayne was born in Jackson, Miss., on September 1, 1939. He lived in Jackson for two years, then moved to Bay St. Louis.

He is 5 feet 8 inches tall with black hair, big blue eyes and on a whole is a handsome homo sapien. He has attended Bay High school for 11 years and participated in basketball and football.

His favorites are: in sports, basketball and hunting; song "Fruit Fruit"; a subject history; colors blue and gold and his best liked food is a big platter of fried oysters with fried potatoes and plenty of tomato catsup. His dream girl is a brunette, 5 feet 5 inches tall with a sense of humor who can play a good game of basketball.

"Sut" may some day be referred to as Dr. Wayne S. Alliston. His ambition is to be a dentist and he will attend Mississippi Southern College in Hattiesburg.

COUNTY AGENT'S NOTES

BY HOWARD F. SIMMONS
Hancock County Agent

CORN FOR 1956

Recommended varieties of corn, planted at recommended seeding rates and dates and with adequate fertilizer is profitable.

Here are some Agricultural Experiment Station recommendations for 1956:

Hancock County—Dixie 18, Col. 811, and Louisiana 521. For early hogging off in Hancock use Dixie 17, 22, 33 or PAG 631.

A good silage corn is Dixie 18. Corn should be planted on a good seedbed on reasonably deep, well drained soil. Avoid steep, southerly and eroded hill sides. Plant just before cotton planting time.

Space plants 14" to 15 inches apart in rows 40 to 42 inches. This will require about a peck of seed per acre.

Fertilize according to soils analysis, or consult your local county agent for general recommendations.

Social Security for Farmers

Self employed farmers can become eligible for Social Security benefits as early as April of this year, if they have earned as much as \$400 from farming in 1955 and so far this year.

However, along with this goes the responsibility of reporting farm earnings and paying the 3 percent Social Security tax not later than April 15, 1956.

Payments should be made as soon as possible after January 1.

The form for making the report and paying the tax comes with the Federal Income Tax Return. If total net earnings from farming were as much as \$500 in 1955, you must fill out and file this return and pay the Social Security tax. This is true even if you do not pay any Federal Income Tax for 1955.

getting monthly old-age insurance benefits, provided they have met the earning requirements and paid their tax. Other farm-ers, regardless of age, will get family protection in form of family payments to surviving dependents, provided they have met the requirements.

Further information on Social Security taxes may be obtained at your nearest Internal Revenue Service Office.

Proper Milking

If you do not get all the milk out of a cow's udder, you are leaving her up. There are some common mistakes in milking that may hinder your milk production.

These include: milking over a udder and milking under a udder. The best way to milk is to milk the udder from the side and not from the front or back.

Proper milking is a skill. This is why you should have a trained person to milk. The person should be clean and healthy and should be trained in the proper way to milk.

A farmer milking a cow should be clean and healthy and should be trained in the proper way to milk.

Heavy paper and burlap are good for this. Tree owners with small trees less than six feet thick may wrap the trunks with aluminum foil. Permanent aluminum or hardware cloth cylinders to enclose the trunks are best of all.

TEN THOUSAND ACRES NEEDED FOR MERIDIAN JET BASE

Nearly 10,000 acres of space will be needed for the Navy's jet training station near Meridian. In outlining the needs, the Navy is asking authority to acquire land and prepare plans and specifications for the station. The additional Meridian acreage is needed, because of the adoption of a new basic design for aircraft runways and supporting operational facilities. The new design represents a determined effort to plan Naval aid facilities to meet operational requirements for five to 10 years in the future.

Favor \$60 Million Road Plan Matching US

Jackson, Miss.—Mississippi appears headed for a \$60 million highway bond program over the next 20 years to match the huge new highway construction plan Congress is expected to pass this year.

The jumping off point for the new bond program would be a proposal now pending in the state Senate to raise the authorized highway bonded debt of \$70 million, this means that the highway commission could issue \$15 million in bonds if the bill is passed.

But the highway officials expect to spread the additional bond authority which they will get from the new bill over a 20-year period. Their proposal calls for a schedule of issuing \$5 million in bonds each year until 1960, then \$4 million each year for the next four year period, decreasing \$1 million each four years thereafter until the last issue in 1975.

All of the bonds issued would be to supplement the regular gasoline revenues in matching the

federal aid which is appropriated to Mississippi.

This Won't Hurt

Mississippi's highway authorities look upon the 20-year bond plan as the most "painless" way for the state to put itself in position to get the big windfall of expected federal funds.

The other two possibilities—raising the state gasoline tax or re-allocating gasoline tax revenue to give the highway commission a bigger share of the present tax—would mean a major legislative fight.

Adoption of the new bond plan would have two other implications. It would remove any possibility of the state going back to "pay-as-you-go" construction of highways which it tried for a three-year period. It would also give the state the prospect of a \$41 million outstanding highway debt in 1977, the year the present highway debt is supposed to be liquidated.

Under the compromise bill in Congress which appears headed

for passage, Mississippi would get \$36,423,617 for fiscal year 1958, and \$31,234,814 the following year.

Biggest in History

To qualify for the \$36 million in 1958, Mississippi would have to put up \$12,600,000. Gasoline taxes allocated to state highway construction now produce only about \$8 million for matching federal aid.

The proposed bond schedule under the \$85 million debt ceiling, highway officials say, would provide the difference to match the federal assistance.

Should the federal highway plan and the Mississippi bond program materialize, it would launch the biggest highway construction program in dollars and cents ever held in Mississippi.

The proposed federal program is aimed at expediting construction and reconstruction of the national system of interstate highways.

In Mississippi, this would mean four main highways—US Routes 80, 51, 80 and 11 would be turned

into "super-highways" to carry the volume of traffic to come up to federal standards.

All four routes under the plan would become four-lane divided highways with either limited or full-access control.

The new plan would probably deal a severe blow to the proposed four-lane toll road north and south through Mississippi between New Orleans and Memphis.

COPIAH FARMERS WILL TRY GROWING LETTUCE

Lettuce growing is being explored as a money-making possibility in northern Copiah County. The first shipment of lettuce plants has been received and ten farmers have agreed to raise the crop on an experimental basis.

The project is under the direction of Truck Crops Experiment Station superintendent John Campbell and agricultural worker Robert Davis. These men arranged for the plants, fertilizer and transportation of the plants.

55 FIRE LOSS

Last year's state fire loss was \$1,000,000, according to the Board of Fire Commissioners.

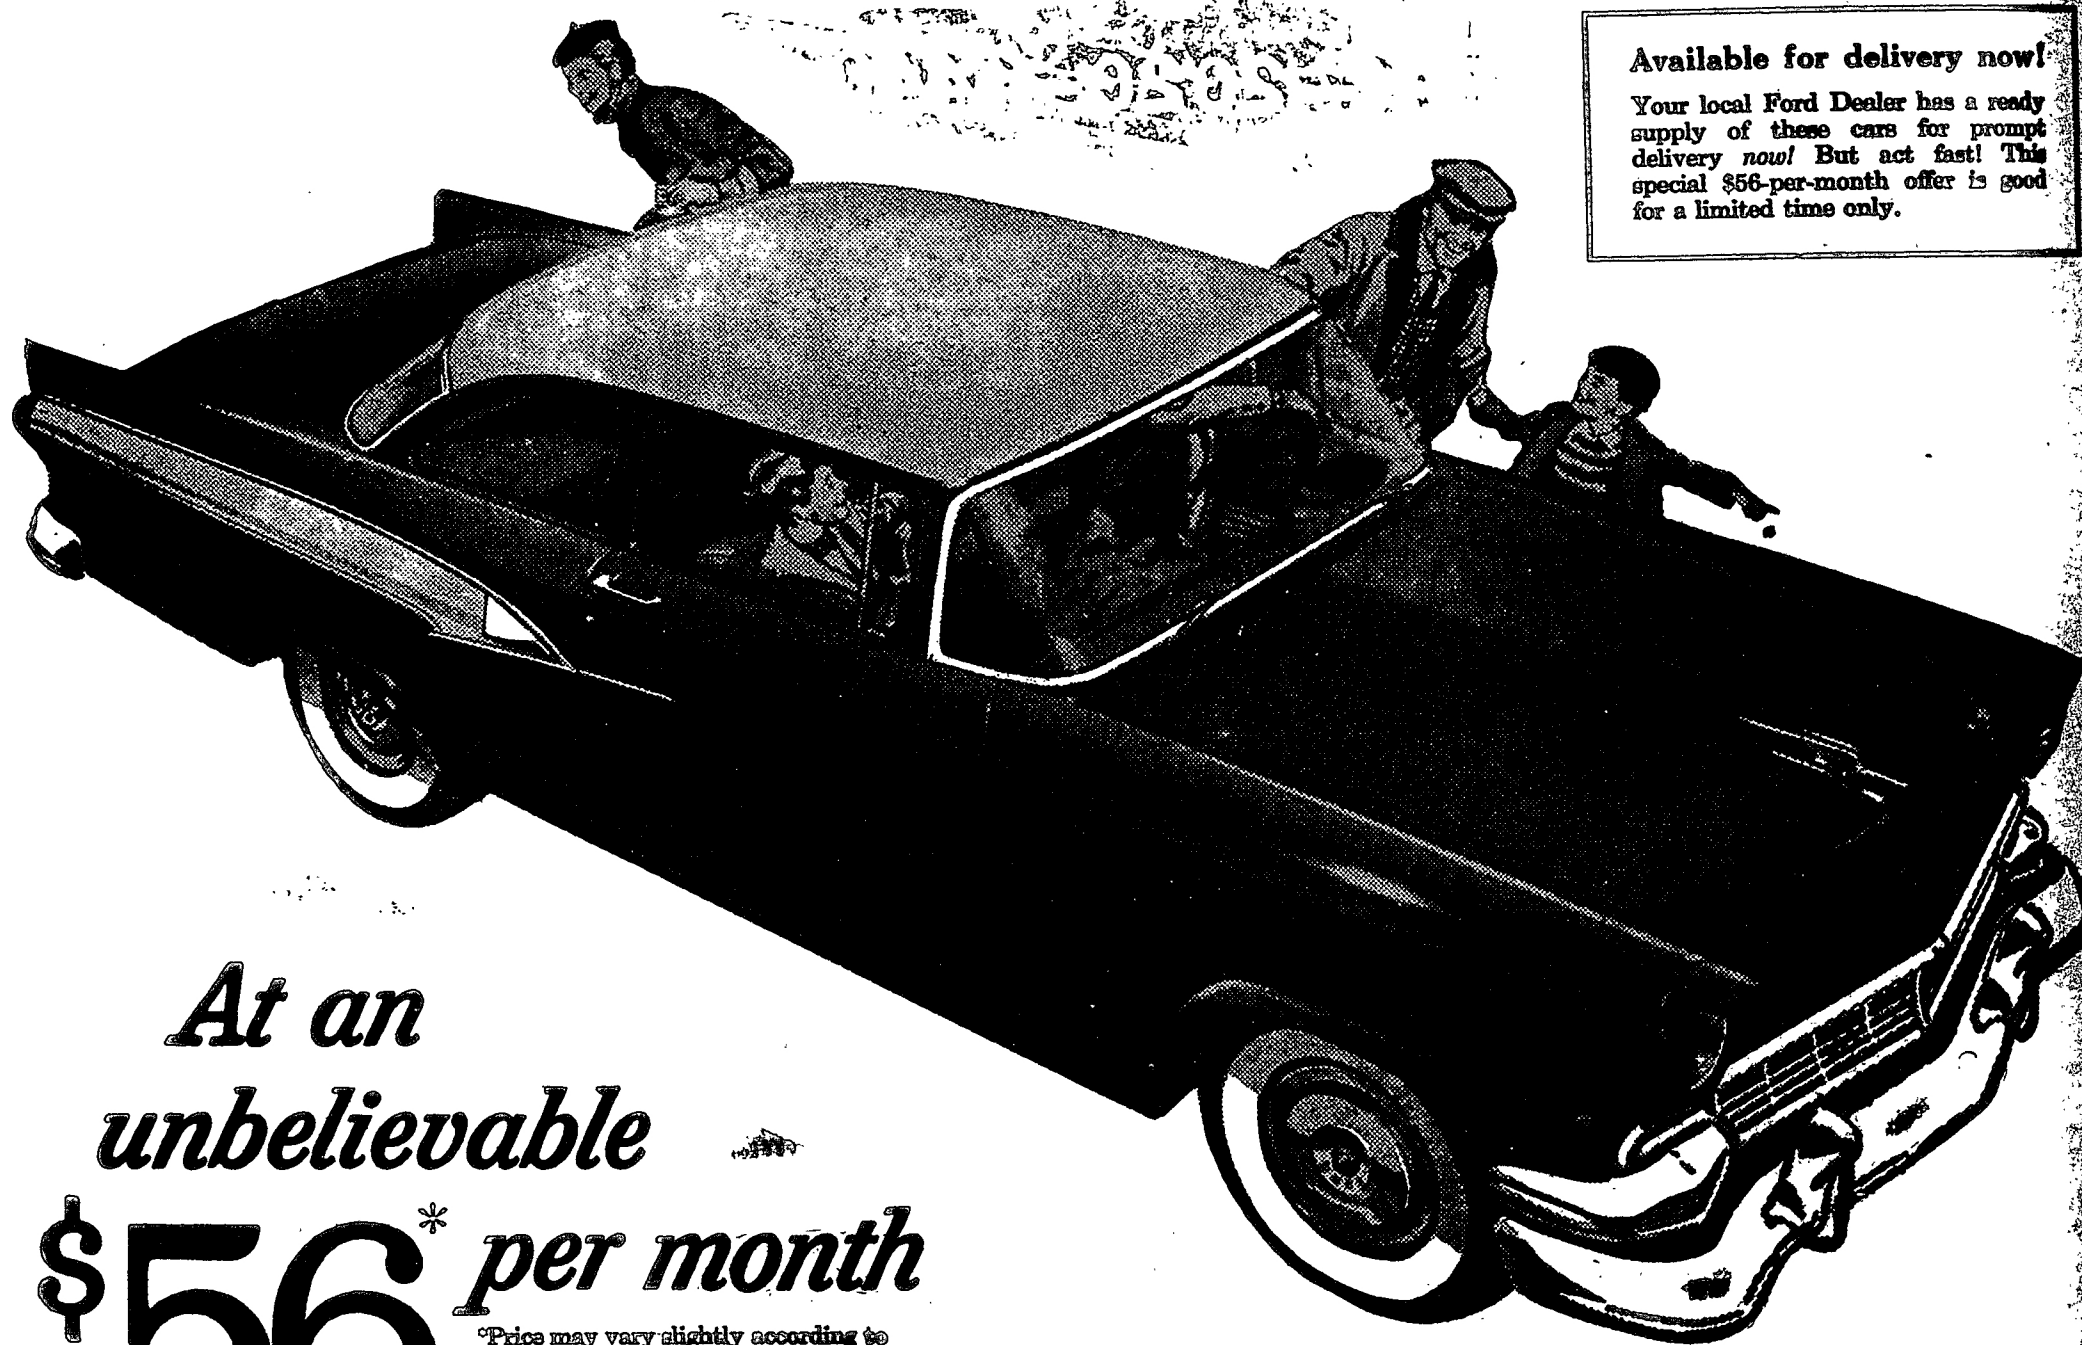

This is an increase over the \$800,000 loss reported for 1954. Collectively, the loss represents a broken down of thousands of small fires.

Added to the total fire loss, a picture of tragedy, it is largely because human lack of understanding of the fire hazard.

GEORGE HEITZMANN

Candidate For CITY COMMISSIONER

TO THE PEOPLE OF BAY ST. LOUIS,
MISSISSIPPI

I wish again to employ this means of thanking each and everyone of my many friends and the people who supported me in the First Primary for the office of City Commissioner to fill the unexpired term of Sylvan J. Ladner. As stated in last week's issue I hold no prejudice or ill will for those of you who were unable to vote for me in the First Primary and earnestly solicit your support to elect me as your Commissioner.

In offering myself as your Candidate for City Commissioner there are several things which I strongly advocate to which I will exert every effort to carry out during my tenure of office. I strongly urge you to carefully consider the following parts of my platform:

1. I favor an increased and improved Police Force. I favor the establishment of a Police Station to be affiliated with the present County two-way Radio Police communication which will provide maximum security. I will advocate an increase in salary of this personnel as I firmly believe that your present Force is grossly underpaid.
2. I will strongly support an increased FIRE PROTECTION PROGRAM. I will advocate the erection of an additional Fire Station in the South Bay area. The City of Bay St. Louis presently owns two fire engines and could, at a very nominal cost, maintain two stations. This will afford better protection and lower fire insurance rates. I will advocate that a site be selected that will serve advantageously to all the people.
3. I will strongly support an immediate improvement program in the water system for the entire City. We have had some much needed improvements in recent years but I believe ALL OF THE PEOPLE should be served adequately.
4. I am in favor of a NEW CITY CEMETERY WITHOUT BOND ISSUES.
5. I will strongly oppose any INCREASE IN YOUR AD VALOREM TAXES. I believe that with the added revenue from your current Sales Tax some relief should be forthcoming and that with the added revenues being received from the State many improvements could be added to your City.
6. I will strongly advocate the publishing of the Minutes of your City and will publish all of the disbursements of the City, including the gas and water departments.

Honest Efficient

Capable

7. I will support a fair distribution of all purchases made by the City whereby each and every merchant within the City will share in the purchases.

8. I will recommend an annual audit by an UNBIASED AND INDEPENDENT ACCOUNTANT.

9. I will advocate better maintenance of your streets. I WILL OPPOSE ANY BOND ISSUES THAT WOULD BE A DETRIMENT TO YOU AND YOUR CHILDREN FOR THE NEXT GENERATION.

10. I will return this office to the People for it is you whom I will represent and this will be YOUR OFFICE and I, your Servant.

I believe my past experience in public offices fully qualified me for the office to which I aspire, and, in this respect, I again state briefly some of my experiences that directly relate to the position of City Commissioner.

1. I have served you for the past eight years as a deputy Tax Assessor in the office of the Honorable Claiborne J. Ladner, your present County Tax Assessor.

2. I was employed for several years in the office of the Sheriff and Tax Collector and in the office of the Circuit and Chancery Clerk.

3. Until recently I served as your Executive Director of Public Housing.

4. I am active in all civic projects for the City, County and State.

5. I will continue to be unbiased and serve all of the people, regardless of Race, Creed or Color in the same manner.

I AM AN INDEPENDENT CANDIDATE, TIED TO NO POLITICAL FACTION OR INDIVIDUAL POLITICIAN as I still want to be free to express my own honest, fair and impartial convictions and to act accordingly.

In closing I ask that you carefully consider my qualifications and the things for which I stand.

God willing, I still desire to be your Public Servant and will make this office YOUR OFFICE.

Respectfully,

George E. Heitzmann

VOCATIONAL REHABILITATION ON MENTAL ILLNESSES

During the last year sixteen persons who had some type mental illness were rehabilitated through services of the Mississippi Vocational Rehabilitation Division. Some had been hospitalized; some had not.

These people were residents of Hinds, Lauderdale, Newton, Simpson, Yazoo, Oktibbeha and Leake Counties. The total cost of psychiatric rehabilitation by the Mississippi Division was \$6,351.00 in psychiatric services. At the time these cases were closed the clients showed annual earnings of \$24,388.40% of the cost of their rehabilitation.

Until last year Mississippi had a psychiatric social worker on staff of the Vocational Rehabilitation Division to coordinate the necessary information and give the necessary counseling and guidance to those with mental and emotional handicaps. However, another state had more money and greater opportunity to offer a psychiatric social worker on the vocational rehabilitation staff. He was not replaced at this time due to an acute shortage of funds.

"We need very badly enough money to carry on an adequate program of psychiatric social work services for the emotionally handicapped," stated Travis McCharen, Director of the Mississippi Vocational Rehabilitation Division. "However," continued McCharen, "our hands are temporarily tied by the shortage of state money with which to get federal matching dollars."

Under the provisions of Public Law 565, 84th Congress, either a physical or mental disability may make an individual eligible for rehabilitation services. "Mississippi, though," stated McCharen, "has not emphasized any additional services the new law provides, because there is little use in talking about something that our program in Mississippi cannot offer until we have the money."

"The handicapped people of Mississippi need every cent of the \$977,028 that has been request-

MUSICAL TONE MAY REPLACE TELEPHONE BELL

Bell Telephone laboratories reported today on experiments with a new musical tone device which may someday replace the telephone bell if it meets technical standards and customers' approval. The first major field trial of the new device will take place in the Crystal Lake, Illinois area next spring.

The experimental site was selected for the variety of telephone equipment it affords. Some 300 customers on 100 telephone lines, ranging from individual to 8-part rural service, will be asked to participate.

The musical tone equipment uses transistors, the tiny, low powered devices invented at Bell Laboratories. Transistors are rapidly taking over many functions in telephone communications.

In this experiment the tones will be transmitted with the same amount of power required for a telephone conversation, considerably less than is needed for a telephone ring. The ordinary telephone bell requires 85 volts. The transistorized device operates on less than a volt.

The experimental telephone sets in Crystal Lake will be almost identical in appearance with the latest models placed in service by the Bell system.

The only apparent change in the set is a lowered section at the side of the house through which the sound is radiated. Alterations in the telephone central office at Crystal Lake and on telephone lines there will not affect the customer.

Limited field trials and laboratory test already indicate some of the advantages of the musical tone. Reactions of a "Jury" of men and women participating in laboratory tests showed that the musical tone can be heard at great distances. It stands out above general room noise and can be distinguished from such sounds as the

ed for them," Mr. McCharen said. "And if the legislature appropriates this much state money, the disabled can have every federal dollar to which they are entitled."

HOME AGENT'S NOTES

by
IDA LAURA GARRAWAY
Home Demonstration Agent
Hancock County

Keeping bread fresh after you get it home from the bakery or grocery store is a problem for many homemakers. Is it for you? If you nod your head in agreement, here's an answer from research by home economists:

The best all-around place to store bread at home is in a refrigerator. Freezing is practical either for bread in meal-to-meal use or for loaves stored several weeks. Frozen loaves will thaw in three to four hours at room temperature. You can toast frozen slices without thawing; but it takes longer. The original wrapper of waxed paper or cellophane does a good job of keeping moisture from escaping. Be sure the wrapper is closed tightly after each use.

LAWN FURNITURE

Here's a hint for those of you who plan to buy or make new furniture for your lawn this summer. The chairs should have solid seats. Choose slats or chairs with some type of drainage. Some even have holes for drainage.

If the seat cannot drain, there is danger of rust and rot much sooner.

BUILT-IN OVENS

At what height should a built-in oven be placed? About one out of four kitchens in the home being built today have a built-in oven - one built into cabinets and set apart from surface cooking units. The heights at which these ovens have been placed varies widely.

A recent study showed that women of average height - five feet two inches to five feet three inches - used less energy when the most-used oven racks were 28 to 40 inches from the floor.

Lower ovens caused more tiredness. Those with racks more than 40 inches from the floor were ringing of doorbells, alarm clocks and fire alarms. Still it was judged to be a distinctive and pleasant sound.

An advantage rated high by Bell scientists is that the new device is an aid to the partially deaf. This is because the musical tone contains more energy in the middle frequency range where there is ordinarily less loss of hearing acuity.

OPTOMETRIC EXTENSION PROGRAM POST GRADUATE STUDY

"Human vision and television are very closely alike in the manner of proper function." This comparison was drawn recently by Dr. Edmund F. Richardson, internationally famous optometrist of Hollywood, California, and Director of Study Groups for the Optometric Extension Program, for members of the Mississippi Optometric Association at the Heidelberg Hotel during a post-graduate study conference in Jackson, Mississippi.

"Just as the TV camera that is in perfect working condition can pick up a good sharp image of what is in front of it, so can the human eye pick up a clear, sharp image. If there is something wrong with the transmission in the TV station or with the viewer's receiving set, a poor or distorted image reaches the viewer. Either nothing comes the picture or the picture is distorted."

Just as truly, if there is something wrong with the teamwork of the two eyes, or if there is something wrong with the 'message' that is carried through the eyes to the brain, vision is distorted or poor. With an estimated 75% of all formal teaching utilizing the sense of sight, it follows that faulty vision can result in slow comprehension, lowered achievement and impaired efficiency.

"There is a common misconception of the public mind that 20-20 on the time-hallowed distance letter chart indicates normal vision. Actually, all that 20/20 means is only normal sharpness at distance. In no way does it imply that vision is easy, productive, or satisfactory."

"It is the professional duty of every optometrist to acquaint not only his patients but likewise the educators, employers and highway authorities of his community with the facts surrounding the vital role that maximum visual efficiency plays in the safety and day-by-day welfare of the public - in school, in business, and on the highway."

"It is only by the combined effort of all concerned that the number of children in our schools who 'can't read' be lessened; the toll

Mrs. Harry Thompson led the devotional.

Following the business meeting, refreshments were served by the hostesses and a social hour was enjoyed by the guests.

The Jackson Tile Manufacturing Co., is now in operation with a new plant at nearby Flowood. An annual production of 12 million feet of glazed wall tile is anticipated. Tile will be of Mosaic type. The new plant is in affiliation with the Mosaic Tile Co. of Zanesville, Ohio, and will manufacture a Mosaic type product to be distributed nationally. The South probably will use the larger portion of the production, however. Statistics show the South uses more ceramic tile per square foot of construction than any other section.

AMERICAN LEGION'S FIGHT IN CONGRESS FOR WAR VETERANS SECURITY BILL

Jackson—The American Legion's fight in Congress for the enactment of its War Veterans Security Bill is a fight to provide a measure of freedom from want for a number of local war veterans who are unemployed because of old age and physical disabilities and who have no income or an inadequate income.

This was the statement here today of C. D. Guley, Commander of the Mississippi American Legion in explaining the organization's top legislative objective for 1956.

"We are not asking for general pensions for all veterans," Commander Guley said. "We only want aid extended to those war veterans age 65 and over who have little or no income and are unemployed because of age or

disability. The government assistance we are asking is only for those who can qualify under the income limitations set by Congress."

"Actually, The American Legion is not asking for any new benefits. We merely want existing laws already providing for disability payments to be liberalized so as to meet a growing and tragic need."

"The bill we have before Congress to accomplish our humanitarian purpose is H. R. 7886. It is known as 'War Veterans Security Bill,' and it asks for a modest increase in existing disability payments to make them more realistic in respect to the increased cost of living. We are asking also that the income limitations be raised from \$4,000 to \$5,000 a year."

"Finally, we are asking that veterans aged 65 and over shall be presumed automatically to be unemployed because of age and disabilities and thus en-

able to receive the aid provided by the bill."

"The bill is being introduced in the House of Representatives by Representative C. D. Guley, of Mississippi."

"The bill is being introduced in the Senate by Senator J. W. Eastland, of Mississippi."

AMERICAN LEGION AUXILIARY NOTES

Mrs. Russell Elliott and Mrs. Nellus Rhodes, President and Secretary of District 9 of the American Legion Auxiliary attended the regular meeting of the Petal Legion Auxiliary this past week. Mrs. Elliott and Mrs. Rhodes and Mrs. L. S. Elliott also attended the Veterans Hospital. Mrs. Rhodes reports that requests are coming from the Veterans of the American Legion papers and magazines. When anyone finishes their papers and magazines if they would send them directly to the Veterans Hospital, they would be greatly appreciated. Also a collection of broken toys is requested. The veterans would like to repair these all year round.

Plans are underway for a minstrel to be presented by the American Legion Auxiliary members. Mrs. Juanita Ward is chairman of this affair and urges anyone who would like to participate, please notify her or Mrs. Leroy Luke or attend the next meeting to be held Monday night, March 5th, at the Legion Home at 8 o'clock.

This is the first attempt at a minstrel for the Auxiliary and it is hoped that the affair will prove a huge success. So come on out and take a part as a good time is expected to be had by all.

Members of the Forty and Eight were guests Monday night, Feb. 27 of the American Legion Auxiliary Unit 139 at a supper given at the Legion Home. Approximately 20 guests were present. Members of the Auxiliary who served were Mesdames Rene Bermond, Frank Taconi, Owen Heizmann and Joe Compretta.

BIRTHDAY DINNER. Mrs. A. G. Favre entertained at a dinner Sunday at her beautiful Dunbar Avenue home, when a number of her immediate family joined in celebrating birthday which occur in the month of February.

Two heart shaped cakes were joined to form one large cake for the honoree and centered the dining table.

Those celebrating the birthdays were Miss Udell Favre and Mrs. Charles Scianna, both daughters of the hostess; Charles Scianna, a son-in-law; Mr. and Mrs. Nellus Favre, a son and daughter-in-law; Mrs. Leonie Monti, a sister of Mrs. Favre; Sgt. Bruce Favre, who is home on leave from the Army and Pat Favre, both sons of the hostess.

In addition to those honored for the day, Mrs. Favre had a number of other members of the family for dinner.

Sgt. and Mrs. A. G. Favre, of Jackson with their four children were week-end guests of Sgt. Favre's mother.

CARD OF THANKS. We wish to thank our many friends and our God for being with us through the years and on the celebration of our Golden Wedding Anniversary. To our many earthly friends who remembered us with beautiful gifts, and to Almighty God, who remembered us with fifty years of continued blessings during our married life, we extend our deepest gratitude. Mr. and Mrs. Claude Mauffray.

The menu will include, baked ham, roast beef, potato salad, green salad, candied yams, baked beans, baked macaroni and cheese, coffee and tea. Price of the supper will be one dollar donation.

Adults and children will be welcome.

DO YOU KNOW? Mardi Gras fell on St. Valentine's Day in 1895, and that Mardi Gras was distinguished by being one on which snow covered the ground. Since February 7 that year the temperature had remained below freezing (except for a high of 37 degrees on the 10th). Then on February 12 it dropped to nine degrees, and there was a three-inch snow fall. The next day the temperature rose to 12 degrees, and on the following day, Mardi Gras, to 22, and the snow remained on the ground.

Carnival maskers snowballed all in turn. Newspapers of the day reported that the chill air had the maskers on the floats kicking higher and more ecstatically than ever before in order to keep warm.

Valentine Day only four years before had also seen snow, which began falling a short time before noon on February 14 and by night had increased in volume. There was snow again on February 16, and the weather bureau officially reported eight inches in Lafayette Square, but said two inches had probably fallen and melted before the measurement. During this period the city had below-freezing weather for seven consecutive days, with seven degrees on February 13 still remaining the coldest ever recorded by the local bureau. It was February 18 before the temperature got as high as 35, and by March 1st, which was February 26, the city "baked" in a warm 49 degrees. The snow and the ensuing hilarity had disappeared by then.

However, the period was far from hilarious for residents. The snow immobilized the street cars, both electric and mule-drawn, and those who owned wagons removed the wheels and bolted board-runners to the axles, and were drawn through the streets by horses. For the first time in history the horse races were run in snow, but visibility was so poor the horses could not be seen beyond the stretch. The jockeys wore all the clothes they could put on, and covered their heads and faces, leaving only slits for their eyes.

The unusual weather was part of a blizzard which mangled most of the South with snow, and the Ohio and Mississippi rivers were frozen, the latter as far south as St. Louis. Baton Rouge had 7 inches of snow, Lafayette 12 inches, Thibodeaux 14 inches, Crowley 12 inches, Hammond 9 inches, Ponchartroula 4 inches, Amite 11 inches, Slidell 10 inches, Mandeville 4 inches and Abita 3 inches.

ST. CLARE'S HNS HOLDS OFFICERS MEETING FEB. 16. St. Clare's Holy Name Society held its Officers meeting Friday, February 16, at the home of A. J. Frey, present were: Father Costello, A. J. Frey, M. Trynkle, Harry Lynch, John Auderer, Guy Drew, Mel Villere, James Mocklin and L. J. Fernandez, Jr.

Month of March is Father and Son Month. The official communion will be on the 11th, at the 8 o'clock Mass. The communion intention for the month of March is quite obvious from the program for this month. Everyone needs the spiritual help of his fellowman. All fathers are asked, therefore, to remember their sons in their prayers at Holy Communion and all sons are requested to do likewise for their fathers. The communion intention is "My Dad" or "My Son," as the case may be. Plans have been made to have pictures at the Father and Son Communion, after which a short speech will be given. There will be five attendance prizes, three for the men, and two for the boys.

Father Costello requests that the Holy Name Society members show good example and attend the services. Listed below is the time scheduled for the Lenten services: 7:30 p. m. Fridays, and 7:00 p. m. Sundays.

Guy Drew has offered to phone all members before each communion; to take the place of M. Thentle, who is unable to do so in the future.

The motion picture, "I Beheld this Glory" will be shown at 7:30 p. m. at Waveland School on March 28th. The film will also be shown to the Waveland School children at 1:00 p. m. that same day.

Robert Fernandez and Joe Bourgeois will act as chairmen for the Altar Boys Society. These boys will work together to unite the Altar Boys and assign them to different Masses.

A special meeting was held Monday night, 20th, for the Parish Hall. Water pipes have been received for the Parish Hall and the gas pipe has been ordered and should be in place in the immediate future. At the meeting of the Parish Hall Committee final plans have been made to initiate the drive for Parish Hall funds, to be used for church activities, youth recreation, and Boy Scout Troop 20. The Parish Hall is to be erected adjacent to St. Clare's Church on Waveland Beach. Watch for announcement for weekly progress.

WAVELAND WANDERINGS

Beginning on Wednesday of this week and continuing through Saturday, March 3, will be the Logtown County Basketball Tournament which will be of interest to all teams and supporters in this area. On Saturday afternoon at 3:00 P. M. there will be a musical program which will be under the most capable direction of Mrs. Ruth Ketchum of Waveland.

"Welcome Home!" was the greeting which met Staff Sergeant "Billy" Zimmermann this week as he arrived in Waveland to rejoin his family after spending one year in Africa. Zimmermann, who is married to the former Miss Beverly Bourgeois of Waveland and is the son of Mr. and Mrs. Harold Zimmermann, also of Waveland, plans to spend a 21 day leave with his wife and two children before reporting to Tampa, Florida, where he will be Staff Sergeant.

Adding to the business section of Waveland is another shop operated by Mrs. Edna Grimes. Mrs. Grimes' shop, called Edna's Shoppe, is located at 166 Coleman Avenue. In her attractive shop ladies can find costume jewelry, and ladies' and children's wearing apparel. Mrs. Grimes opened her new business last Saturday. This column welcomes her and wishes her success.

Congratulations and best wishes go this week to Dr. Olio Mollere who has opened an office for the practice of his dental profession. Dr. Mollere is located on Coleman Avenue next to Wilcox Electric. His office is in the attractive new brick addition to this building which houses some of the most outstanding businesses in Waveland.

Dr. Mollere was stationed in Germany during the past year. He received his training at Loyola University in New Orleans and practiced his profession during his stint in the army. Dr. and Mrs. Mollere and their daughter live on Coleman Avenue in their own home. The doctor's Waveland office will be open on Wednesdays and Saturdays. This column extends sincere greetings and wishes for a successful future. Dr. Mollere is the son of Mr. and Mrs. C. B. Mollere of Waveland.

Congratulations and best wishes to Mrs. Elizabeth Courage of Waveland who celebrated her 91st birthday Thursday.

Don't forget that this Saturday at Mar. 3 is the Super sponsored by the Eastern Star. The upper will be held at the Masonic Hall in Bay St. Louis, and serving will begin at 5:00 p. m. Donation is \$1.00. Come out and enjoy some of the wonderful food.

Mr. and Mrs. Charles Ketchum and their niece, Miss Eileen Ketchum, of New Orleans spent the weekend in the Macaluso home on Pearl River. Joining the Macaluso Sunday were Mr. and Mrs. Paul Boyle and children, Paul and Steven of New Orleans.

Mr. Marcel La Mass, band director, at Bay High School, returned to Poplarville Friday and Saturday, February 24 and 25, to attend the Band Clinic, held at Pearl River Junior College. During the 3 day stay several of Bay High students were chosen according to ability to play certain positions in the band.

Among them were Clara Lee Ketchum, Clea Kay Miller, Carol Horton, Fellers Drury, Gregory Nease, Otto Bourgeois, Richard Bourgeois, Sylvia Tamplin, Bill Forrest and Alvin Ketchum. Clara Lee Ketchum, Richard Bourgeois and Otto Bourgeois are residents of Waveland.

Best wishes for success are extended to Mr. and Mrs. Walter Courtault who have reopened the dry cleaning establishment located across the railroad in Waveland near the Mestayer Lumber Co.
